**FOR IMMEDIATE RELEASE: 10/2/17**

### **Next Science Showcasing BlastX™ at Fall Wound Care Conferences**

**Jacksonville, FL:** Next Science, LLC is pleased to announce it will be exhibiting and presenting at three upcoming fall conferences, highlighting its BlastX Antimicrobial Wound Gel.

From October 4-7, 2017, Next Science will exhibit at the Wild on Wounds National Wound Conference in Las Vegas at the Rio Hotel. Visit Next Science at booth #222.

From October 19-22, 2017, Next Science will exhibit and make poster presentations about BlastX at the Symposium on Advanced Wound Care Fall meeting (SAWC Fall) in Las Vegas at Caesars Palace, booth #243.

Next Science will also exhibit at the Desert Foot Conference from November 29 to December 2, 2017, at the Sheraton Grand Phoenix in Phoenix, Arizona. Dr. Matt Regulsky, DPM, will be a featured speaker at the event discussing wound infection and methods of biofilm disruption.

BlastX is an antimicrobial wound gel powered by Next Science's patented, non-toxic Xbio™ technology. It first deconstructs the bacterial biofilm matrix—a major barrier to healing—then destroys bacteria within the gel, and defends from recolonization while maintaining a moist wound environment.

For questions or inquiries about the Next Science family of products including BlastX Wound Gel, visit [www.nextscience.com/blastx-wound-gel-2/](http://www.nextscience.com/blastx-wound-gel-2/)

#### **About Next Science™, LLC**

Next Science pioneers innovative, proprietary technologies to address the problem of bacterial biofilms. With proven, experienced management and scientific leadership, Next Science and its partners deliver break-through solutions that see beyond the current limits imposed by powerful bacterial colonies.
