

NEXT SCIENCE®

Statement of Values

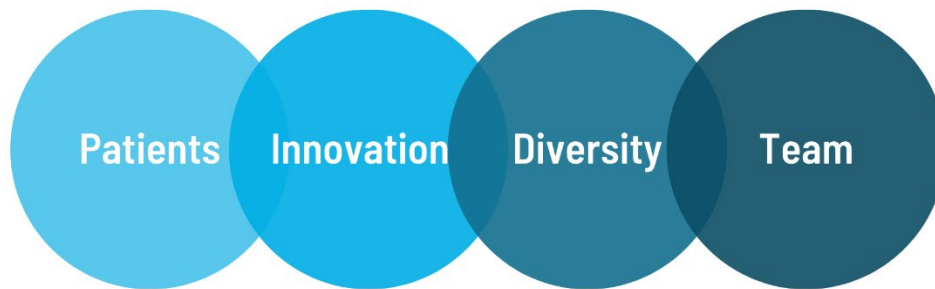

Vision

Healing People & Saving Lives

Mission

To significantly improve patient outcomes, elevate physician efficacy, and create value within the overall healthcare system through relentless innovation and commitment to education and research on biofilm elimination, infection prevention, and treatments for inflammatory diseases.

Values

Patients	Innovation
<p>Patients and our customers are the center of what we do and every day we look to stretch the boundaries of known answers to find better ways to help people.</p>	<p>Entrepreneurial innovation is the heart of our company, and every employee is respected and valued for their contribution, agility, and teamwork. Collaboration is the foundation for our success.</p>
Diversity	Team
<p>Our strengths come from our differences, and we value our diversity of ideas, backgrounds, education, and opinions, all playing key roles in the Next Science family.</p>	<p>As a highly committed, non-hierarchical team we treat each other and our stakeholders with honesty, integrity, transparency, and respect.</p>

Harry Thomas Hall, IV (I.V.)
Managing Director and Chief Executive Officer
